Squabble Over the Oakland Marsh Lands

San Francisco Nov 10.—The Central Railroad Company to-day commenced suit in the third district court against the city of Oakland to quiet title to about 100 acres of land lying along the water front of that city and on the south side of San Antonio creek. This course has been made necessary by the recent agitation of the water front question in Oakland and a squatters war which has been in progress on the marsh land. The land in question is worth about half a million dollars

Another Evasion

The new constitution provides that the directors or trustees of corporations and joint stock associations shall be jointly and severally liable to creditors and stockholders for all moneys embezzled or misappropriated by the officers of such corporation or joint stock association during the term of office of such directors or trustees. To evade this provision an agreement is being signed by the stockholders of one of the largest banks in the city waiving such liability on the part of the directors, unless such embezzlement or misappropriation shall be the result of coöperation, collusion or negligence of such director or directors as may be sought to be made liable for such embezzlement or misappropriation. MEETING AT THE SAND LOTS

Kearney Proposes that the Workingmen shall Take their Offices by Force if Necessary

[SPECIAL DISPATCH TO THE OREGONIAN.]

San Francisco Nov 10.—The workingmen held a large meeting on the sand lots, which was addressed by Kearney on the decision of Judge Wright overruling the demurrer in the salary pledge cases. Kearney said the time had arrived for action, and that all workingmen's clubs must resolve themselves into military companies immediately; that their candidates elect must be seated when the day arrives in spite of the decisions of every judge or court this side of h—l, and by force if necessary. He concluded by appealing to all good citizens to sustain the workingmen in their cause. Several others addressed the meeting to the same purport.

Resolutions were read and adopted reciting that the board of supervisors have shown themselves to be a set of thieves in devoting the last hours of their official existence to granting outrageous franchises to water gas and railway companies and seeking to defeat the will of the people by raising the bonds of officials elect to unreasonable proportions in hopes of preventing them from taking their seats, and pledging moral, political and physical support to the candidates elect of the party in their efforts to obtain the positions to which they had been elected

The west crosscut on the [illegible] level measures twenty four feet. Work has been stopped owing to the face showing signs of water. Preparations are being made to drill ahead to determine the amount of water liable to be encountered [illegible] proceeding further [illegible]. The [illegible] bob at the twelve hundred station broke down yesterday morning, but will be [illegible] in time to-morrow. The stoppage of the pump will not interfere with the work. Mr Deidesheimer thinks the ore body was struck near the apex and that it breaks south and east and says that there is no sign of wall in the face. The richest ore yet seen is in the face this morning

SEWER IMPROVEMENTS DECISION BY JUDGE BELLINGER

[illegible]

The latter [illegible] provides that the council shall have power [illegible] to [illegible] It also provides that when any matter or thing is by the charter committed or left to the discretion or judgment of the council, such [illegible] shall not [illegible] be reviewed [illegible] called in question elsewhere

The intention of the legislature to commit to the council the decision of the question as to what property is benefited has not been questioned in the argument, but the question is presented, Is the decision of the council determining what property is benefited final or may it be reviewed by bill in equity

In High on Injunction it is laid down that courts of equity will not sit in review of the proceedings of subordinate municipal or political tribunals, and that where matters are left to the discretion of such bodies, the exercise of that discretion in good faith is conclusive and will not in the absence of fraud be disturbed (High on Inj § 8[illegible]). Mr Cooley says: There will be no review for an unequal assessment where no principle of law is violated in making it, and the complaint is of an error of judgment only (Cooley on the law of taxation p [illegible]4)

In the case of Wright vs the City of Chicago, 48 Ill [illegible], under a charter authorizing the board of public works to investigate and assess special benefits accruing from street improvements there was an appeal from the assessment on the ground that the objectors in question were not specially benefited in that certain property benefited as much by the improvement as the property assessed was omitted. The court said: The commissioners were the sole judges in the premises. On their oaths they have reported that the lots assessed were specially benefited, and their judgment must stand unless impeached for fraud. In a similar subsequent case reported in the same volume the court uses this language: As a matter of necessity their judgments (the judgments of the commissioners) must control, else there could be no such improvements. If a board of public works selected, as must be supposed, for their good judgment, integrity and general capacity, should under their official oaths declare by their report that certain property is specially benefited by a proposed improvement, can it be that their judgment shall be overthrown by the testimony of others no more intelligent than they? The judgment of men greatly differs in almost every case demanding its exercise, and in cases like this it must be shown it was unfairly or fraudulently exercised, to authorize a court to nullify it. Their judgment must be conclusive in the absence of all fraud. (Elliott vs. The City of Chicago 48 Ill 293)

In an action to restrain the assessors of the city of Albany from assessing certain property on the ground that it was not liable to taxation, the court of appeals refused to examine the question whether the fund was liable to taxation or assessment, the court holding that the assessors were not liable to an action to review, modify or reverse their judgments, when acting within their jurisdiction (48 N Y [illegible]19)

The authorities relied upon by counsel for the plaintiff to sustain the right to review the proceedings of municipal authorities go no farther than to maintain such right for the correction of errors of law. A broad distinction is made between appeal and *certiorari*. Thus it is stated in a note to the authority in Dillon cited by counsel for plaintiff, that an appeal from inferior tribunals does not exist unless plainly given. *Certiorari* on the other hand will lie unless plainly denied or other specific remedy given (Dillon on M C § 368). The reason is stated to be that the proceedings of subordinate tribunals are often administered by men having no judicial knowledge or experience. And there are certain classes of questions which by common understanding, from time immemorial belong to the course of the judicial inquiry under the laws of the land. If the tax is a void tax, if the local authority is acting beyond the scope of its power without jurisdiction, a writ of review will lie to correct the error. But it has never been the province of equity to review mere findings of fact in the absence of fraud. The mere error of judgment of the city council acting in good faith in determining that certain property is directly benefited cannot be reviewed by injunction. It is argued that the allegation in the complaint that the property is not benefited is admitted to be true by the demurrer

As already shown the court has nothing to do with the fact. It appears from the complaint that that question has been submitted to the decision of the tribunal authorized by law to decide it and the judgment of that tribunal must in the absence of fraud be deemed conclusive

The demurrer is sustained.
H. Y. Thompson for the plaintiff
J. C. Mitchell for the city

THE WASHINGTON LEGISLATURE.

[SPECIAL REPORT FOR THE OREGONIAN.]

Olympia Nov 8 18[illegible]

Eastern Washington is the [illegible] for her fertile grain fields and fast increasing immigration [illegible] achieving a national reputation and this has been enhanced by the courteous and able delegation that have represented that section in the present legislature. They will return to their constituents not only with the satisfaction of knowing that their work has been well done, but will also take with them the [illegible] respect and friendship of their western colleagues. The harmony [illegible] has marked their legislative career here [illegible] was most signally departed from [illegible] question [illegible] came up to be debated upon in the house this afternoon. Probably no bill which has been introduced this session [illegible] so large a [illegible] interest and certainly no debate has taken place that will be as closely followed and commented upon by as great a number of your [illegible] readers. [illegible]

Frary declared that the argument of the gentleman from Walla Walla (Taylor) reminded him of the [illegible] which resulted in the [illegible]. The people of Columbia were well satisfied with the law as it stood and [illegible] not desire this change. In his county there were two interests to protect: the stock men as well as the wheat raisers [illegible] not propose to slaughter the one to the benefit of the other

On these grounds that should the house see fit to pass [illegible] wished Columbia county stricken out of the list of counties named

Jenkins explained to the house that he was no orator, nor had he forty pages of legal cap as had his friend from Walla Walla to read from, but he wished it distinctly understood that the people of Whitman county were bitterly opposed to this measure

Stevens told the house that he had made but one speech in his life and that was to a lady, but that he would attempt another to defeat this bill

Dunbar had no hesitancy in saying that its passage would be the most disastrous thing that could happen his section of country. It was the town [illegible] railroad and steamboat men who [illegible] no fence where he lived

Harper had laid out fourteen townships in that section and was satisfied it was a good law. While there were but few cattle there were enough to prevent settlement, because immigrants could not afford to fence. Pass this law and when you find a bare and unproductive country now you will find miles of waving wheat fields

The vote stood against [illegible] for 14. Adjourned

TUESDAY MORNING NOV. 11 1879

THE PEOPLE AND THE RAILWAYS

As heretofore announced the Central Pacific railroad company will be obliged by the end of the present year to pay into the treasury of the United States under the Thurman bill about $800,000 in the business of this year and about $1,000,000 more in the business of [illegible] Payment of this [illegible] sum has been [illegible] the decision of the supreme court on the Thurman bill under the new constitution of California more litigation will certainly arise as the claim of the state to reduce the rates of the railroad will be resisted on the ground that it is incompatible with the claim made by the United States for payments under the Thurman act into the sinking fund. The position of the Central Pacific, as defined by its president is that congress provides for the disposition of a large portion of its net receipts while the state of California has adopted a policy which may result in depriving the company of any net receipts whatever and the question is asked—which of these two masters giving contradictory orders the company should obey [illegible] issues may be created by various other proposed forms of railway legislation

In regulation of railways by legislation great difficulties are from the nature of the case always encountered. In our newer states where railway competition is not generally established and where in many instances owing to light traffic the rates seem oppressively high efforts have often been made to adjust rates by legislation but the results have seldom or never answered expectations. The problem is so infinitely extended and has so many complications that legislative adjustments cannot take in the whole of it. Often it has been found that though in some particulars relief has been obtained through such adjustments, yet in other particulars actual hardships have been the consequence not only upon the railways but on classes of shippers served by them

England has a railroad commission organized under an act of parliament passed in 1873, of which we have an extended account in a late number of the *North American Review*. The commission consists of three commissioners and two assistants. Of the three commissioners one is skilled in law and one in railroad management and operation and no member is allowed to have any pecuniary interest in any railway company. The commission is authorized to receive all complaints of discrimination etc and is invested with all authority formerly vested in the courts, which have ceased to exercise jurisdiction in railroad matters except to enforce the decisions of the commissioners. This commission has power to fix all apportionment of rates for through freight to the several lines participating in the carriage. The companies are required to keep a list of special and schedule rates in a place accessible to the public, and to furnish any required information regarding the same. Railway and canal companies are not permitted to consolidate without consent of the commission, and then only after the terms of agreement shall have been thoroughly published.

One of the principal duties of the commission was soon found to be that of deciding upon questions of discriminations on the part of railway companies between customers. Rates were proved to have been charged higher and lower than those fixed by the schedules, and the schedule rates were restored. Abatements in charges to persons agreeing to patronize a certain company were discovered on complaint and stopped. Rebates for terminal service performed by customers were stopped on complaint of parties at a corresponding station where an opportunity did not offer for the performance of similar service. Cases of disagreement in reference to through rates and routes were submitted to the commissioners and equitably adjusted. In one or two cases the jurisdiction of the commissioners was contested, but, this being decided in their favor, the question at issue was privately arranged. There were no appeals allowed from the decisions of the commissioners, inasmuch as the exceptions were not based on questions of law.

It is probable that a policy of this kind can be carried out in England more successfully than in any American state. The reason is nothing to our credit. In England there is a clearer sense of justice and a stronger regard for the obligations of equitable dealing in such affairs, than prevails anywhere in the United States. One great reason why this is so is the fact that almost invariably with us unscrupulous demagogues take the lead in such movements, and everything is colored and tainted by a partisanship that looks not to equity and justice but solely to the selfish ends of personal success in an election. There is little chance for agreement under such a system between the people and the railways on any common basis of justice for both. Hence, though the California commission will have about the same powers as those exercised by the English commission, there is little reason to suppose that the results will be equally satisfactory

"NO FENCE LAW" DISCUSSION

As yet the cattle interest so preponderates in Washington territory that the legislature declines to enact a "no fence" law. Our report contains an interesting summary of the debate in the house on the subject. The bill failed, though it was a close vote. The time will come when such a bill will pass. We do not believe the measure can be postponed beyond the next meeting of the legislature. Refusal to enact a "no fence" law now simply postpones the development of the eastern part of the territory. The man who would cultivate the soil cannot do it because he cannot afford to fence against the herder, whose animals roam and graze over a wide extent of land which does not belong to him but which by keeping out the tiller of the soil, he can hold indefinitely for his own use. But in a little time those who want to occupy the land and cultivate it but who are now virtually prohibited from doing so by the necessity of fencing against herds of cattle, will be numerous enough to enforce their views and wishes. A country if it is to amount to much must advance beyond the condition of a grazing country with its great herds and its ranches ten or twenty miles apart. It must be divided up into cultivated farms, and become the seat of a numerous industrious and thrifty population. The poor settler cannot fence against the cattle owner. Materials for fencing are too costly. Hence [illegible] the vacant [illegible] If a man could go with his family to any point he might choose on the [illegible] of some one of the projected railways in the eastern part of the territory [illegible] farmer with [illegible] expense [illegible] be cut [illegible] short [illegible] [illegible] but when the [illegible] [illegible] do [illegible] [illegible] Taylor & Walla Walla [illegible] [illegible]

He has done he says all in his power to reduce these detachments to the lowest number possible. The signal corps [illegible] [illegible] and the recruiting [illegible] [illegible] The general says he [illegible] [illegible] just [illegible] be held [illegible] for the work of [illegible] 000 men when so large a [illegible] is necessarily devoted [illegible] [illegible] of national importance

It is announced that the Union National Bank of New York has decided to go out of the national system and that several other banks have the subject under consideration. It would appear that the profits of the national bank system were not as great as have often been represented

During October as shown by the last statement of the public debt the reduction of the debt was $10,357,900 [illegible] This is the greatest reduction during any one month for a long period

NEW PUBLICATIONS

The first of the reprints of the English quarterlies for the quarter ending with October from the Leonard Scott Publishing Company 41 Barclay street New York is the *British Quarterly Review* now before us. Its first article is "Adolphe Monod, a Biographical Sketch." This individual was the greatest preacher of the reformed church of France of this age and in every respect one of its most distinguished representatives. He is described as "one of the grandest Christians of our generation and one of the most powerful witnesses of the everlasting gospel." The second article is "Irenæus: his testimony to the Concepts of Christianity." The article is a continuation of a discussion of the doctrines of this Christian father begun in the number for July. Dr Johnson's never failing literary theme and the third article in this number is devoted to the great Cham of letters. In it there is not much that can be called new but the matter the article contains will bear frequent presentation in new combinations. Article four is on "The Vatican and Civilization." This is a review from an English Protestant standpoint of the relations of the Vatican to the governments and peoples of Europe. "What is Religion?" is the subject of the fifth article. After a review of the tendencies of the age in the discussion of religions this definition is given. "Religion is an inner sense of an obligation in man to an external object of a nature different from his own which is regarded as superior in nature position or power which obligation prompts to acts of reverence devotion or obedience with a view to please or placate its object." The sixth article is on "The Political Prospects of Italy." We have here an examination of the condition of Italy as a nation which contains much information of a sort not readily obtainable. We are informed that poverty has increased in Italy since the unification of the country at a fearful rate and the reason is that the increased taxation necessary for maintenance of the government under the national system falls with especial stringency on the poorest classes. Italy *will* have an army of nearly a million men, and the people suffer everything to support it. The remaining articles in this number are "Universal Education in Ireland" and reviews of contemporary literature

Blackwood for October published also by the Leonard Scott Publishing Company contains an article on Syria being an account of what was seen by an observant traveler round about Damascus. "A Deadly Feud," a tale from France; "Ion," another installment of "Reata, or What's in a Name"—Part VII; an account of the "Demise of the Kaiser-bund"; "Contemporary Literature—Newspaper Offices," and a political chapter on "The Cabul Mutiny."

With the November number *St Nicholas* (Scribner & Co, New York) begins a new year, and has added features which will make it welcome to every household in the land. There are twenty eight additional pages heavier paper and a wider margin. The number contains sixty odd pictures some of them delightfully droll. Mr Frederic Dielman has a charming illustration of a dainty poem by Mrs Julia R C Dorr and Miss Addie Ledyard has drawn four clever little sketches for "The Family with whom Everything went Wrong." Very jolly is the "Gudra's Daughter" by Frank R Stockton and most humorous both in text and drawings are "the Boys at Chiron's School" the Centaur boys (half boy, half horse) who could not climb a tree. "Playthings of all times and climes" are described by Olive Thorne, and the eleven accompanying illustrations are beautiful specimens of the art. A serial is begun "Among the Lakes" by William O Stoddard who starts out vivaciously with three chapters full of boyish pranks and fun. There are two frontispieces one for the volume entitled Grandfather the other for the number a head of the unfortunate son of Louis XVI, after a painting by Greuse. There is a promise that the Christmas number will excel the present issue

Under the Holton House

NOTICE.

THE PUBLIC WILL PLEASE TAKE NOTICE that I have this day disposed of my entire interest in the livery business to Messrs Holcomb Bros & Co of San Francisco Cal who will continue to carry on the business at the old stand City Stables No 107 Second street and in connection therewith will have a repository and salesrooms for their celebrated carriages buggies phaetons harness etc etc

The entire department will be under the immediate charge and supervision of that very active and efficient business manager George W Lemly Esq who has had many years experience in the above business both in the eastern states and California

Thankful for past favors I would bespeak a liberal share of the public patronage for my successors.

TUESDAY MORNING, NOV. 11, 1879.

CITY.

ARRESTED FOR CONTEMPT OF COURT.—Sunday afternoon James O'Brien was arrested upon the complaint of Thomas Graham, charged with stealing $31 from the latter. The trial was set for 10 o'clock yesterday afternoon, but Graham, although subpoenaed, did not appear as prosecuting witness. Late in the afternoon he was found and brought to the police headquarters, and when questioned by Chief Lappeus, gave as the reason for his non appearance that somebody had offered him $20 not to prosecute and that was an easy way to make that amount. He was immediately committed for contempt of court and will have a hearing this afternoon.

Y. M. C. A. MEETINGS.—Notwithstanding the very unpropitious state of the weather, a fair audience was present at the rooms last evening. After the usual singing and address on the street, the congregation there gathered was invited up stairs to spend an hour. Dr. A. L. Lindsley gave a short but appropriate sermon on the subject of the evening, "A Moral Young Man Weighed and Found Wanting." A good degree of interest was manifested throughout the meeting. To-night the subject will be "The Son of a Godly Father, who Went Astray." Strangers especially invited.

SUICIDE OF A CHINAMAN.—Wing Lee, a Chinaman, who kept a washhouse on the west side of North Front street, between B & C, took the cash, amounting to $30, from the treasury last Wednesday, after dark, and left the premises. He returned about midnight, lay down upon the floor, and took a large dose of opium, from the effects of which he died two hours afterward. He had ten cents in his pockets when he returned and his friends suppose that he lost the money gambling and that the loss of it caused him to commit the deed. He was buried the next day.

STOLE A DOLL.—John Barrowdale, a Scotchman, who came here lately from Sydney, was arrested yesterday for stealing a large doll from the residence of Pat Maher on Second street, near Madison, where Barrowdale worked. He left a few days ago and wrapped the doll in his roll of blankets, where it was found by an officer to-day. The doll was a handsomely dressed young miss, valued at [illegible], and was won by Maher at a church raffle last winter.

HUNG OUT.—The jury in the case of Stevens vs. Jones retired yesterday afternoon, and it seems have failed to agree upon a verdict. One of the jurors, who is in the minority, expressed a determination to remain out two days and two nights before he would yield. Judge Bellinger, on hearing the determination of the juror, said that there were plenty of jurors and he proposed to give the one of strong convictions an opportunity to [illegible].

Y. P. A.—The next meeting of the Young People's Association will be held this Tuesday evening in the vestry of the Baptist church, commencing at 7:30 o'clock, sharp. The meeting will be led by Mr. O. C. Otterson. Subject of the evening, "Fellowship with God." Young and old and everybody invited to join with us.

FROM ASTORIA.—The following specials have been received at the Merchants' Exchange: Ship *Tabor* arrived down at 11:30 A. M.; Norwegian bark *Gungner* arrived in at 9 A. M.; steamer *State of California* passed down at 1 P. M. 4 P. M.—Steamer *State of California* lies here till morning.

SENT TO VANCOUVER.—Thomas C. Sanders, who is supposed to be insane, who has been confined in the city jail since last Friday, was sent to Vancouver yesterday afternoon, it having been ascertained upon inquiry that he was a resident of Washington territory.

[illegible] CONCLAVE.—There will be a stated conclave of Oregon Commandery No. 1, Knights Templar, at their asylum, Masonic [illegible], this (Tuesday) evening at 7:30.

REGULAR MONTHLY MEETING.

Letter from the Secretary of the Treasury—Reply by the Board—Consideration of Preamble and Resolutions.

Last evening at 8 o'clock a regular monthly meeting of the board was held at the room in Ankeny's building.

Col. John McCraken, president of the board, in the chair and Wm. Reid, secretary, in attendance.

Minutes of the last regular meeting read and approved.

D. W. Burnside and C. P. Church were unanimously elected members of the board.

COMMUNICATIONS.

The following communications were read and filed:

TREASURY DEPARTMENT,
OFFICE OF THE LIGHT HOUSE BOARD,
Washington, Aug. [illegible], 1879.

SIR: The following telegram has been sent you to-day:

"Commander Merriman's relief is on his way to Oregon." Very respectfully,
GEO. DEWEY, Com'dr U. S. N.
Naval Secretary.

OFFICE LIGHT HOUSE INSPECTOR,
THIRTEENTH DISTRICT,
Portland, Aug. [illegible], 1879.

Mr. Wm. Reid—DEAR SIR: I am in receipt of your letter of the [illegible] inst., enclosing copy of resolutions passed by the board looking to my retention as lighthouse inspector of this district. I beg to express my acknowledgment of the graceful compliment, gratifying as it was unexpected.
Very respectfully your ob't serv't,
R. C. MERRIMAN, Com'dr U. S. N.

LETTER FROM THE SECRETARY OF THE TREASURY.

TREASURY DEPARTMENT,
WASHINGTON, D. C., Sept. 30, 1879.

Mr. William Reid, Secretary of the Board of Trade, Portland, Oregon—SIR: The department is in receipt of your letter of the 12th instant, in which you communicate, by order of the board of trade of Portland, Oregon, a copy of a resolution passed by that body on the 12th instant requesting a suspension of a recent order of the department, relative to allowance of draw back on exportations of tin cans.

The preamble of the resolution is as follows:

"WHEREAS, We are informed that by a recent ruling of the treasury department, an order has been issued to discontinue the refunding of the duty on tin entering into the manufacture of tin cans, that are exported, and

WHEREAS, This has been an unprecedented bad year in the depression of prices for our products of salmon, and if the order be carried out, it will entail great loss upon our canneries."

From the printed newspaper slip appended to your letter it would seem that the information referred to in the preamble was derived from that source, and is therein stated that the drawback is prohibited on account of the solder being of American manufacture.

In reply, I herewith enclose copies of the instructions issued by the department on the 15th ultimo, and 10th and 24th instant, in regard to allowance of drawback on tin cans, from which you will perceive that the decision of the 15th ultimo (to which the information of the board of trade probably had reference), was intended by the department, and rightly construed by the customs officers at the principal ports, to require evidence of the importation of either the solder, or of the foreign origin of the materials from which the solder is made, and of its importation.

This decision is based upon the express provision of section 3019 of the revised statutes, that the articles exported for drawback shall be wholly manufactured of materials imported.

So far as the department is informed, no other than imported tin is used in the manufacture of solder in this country and therefore, the effect of the recent instructions, as anticipated by the board of trade, of stopping allowance of drawback on tin cans, can only take place in cases where domestic lead has been used as an ingredient of the solder and unless there are reasons to prevent the use of imported lead in the solder manufactured in Oregon (which is hardly probable), no disturbance of the salmon trade of that state will be caused by the enforcement of said instructions.

It is believed that, upon a perusal of the inclosed papers, the board of trade of Portland will be satisfied that there is no necessity for any suspension or modification of the recent instructions of the department in regard to drawback on tin cans.
Very respectfully, JOHN B. HAWLEY,
Assistant Secretary.

WASHINGTON, D. C., Aug. 15 1879.

Collector of Customs, Boston, Mass: SIR—From a report recently submitted to the department by Special Agent N. W. Bingham, it appears that in a number of cases occurring at our port of exportation of tin cans, drawback was allowed on the imported plates used in the manufacture of the exported cans, without any evidence being furnished or required of the origin of the solder, also used as one of the component materials.

Mr Bingham submits that although in the cases referred to no drawback was allowed or claimed on the solder, it was still necessary to ascertain its origin in order to determine whether the exported cans were manufactured "wholly of materials imported," in which case alone they were entitled to drawback upon any of the component materials.

In this view the department fully concurs, and you will please in future require proper evidence of the importation of all the materials before allowing drawback on any.

The question as to the disposition to be made of cases which have heretofore arisen will be reserved for future consideration. Very respectfully,
JOHN B. HAWLEY, Asst. Sec'y.

WASHINGTON, D C., Sept 15, 1879.

Collector of Customs, San Francisco, Cal.: SIR—The department is in receipt of your letter of the 30th ult., in which referring to the instructions addressed to the collector of customs at Boston on the 15th ult., relative to allowance of drawbacks on tin cans, you inquire whether the rule therein laid down is correctly understood by you to be applicable not only to future entries, but also to such of the entries lodged prior to the date of said instructions as were not liquidated before the receipt at your port of the department's letter of the 19th ult., in which a copy of the instructions referred to was communicated for your information and guidance. You also inquire whether the oath of the foreman of the manufactory as to the foreign origin of the solder used in the manufacture of the tin cans entered for exportation with benefit of drawback, may be accepted as sufficient evidence of such origin, or whether in addition thereto, a reference to the date and other particulars of the importation of the lead and tin composing the solder, should be required. In reply to the first question, I enclose herewith a copy of a letter addressed on the 1st inst. to the collector of customs at Baltimore, from which you will perceive that the department has decided not to disturb entries liquidated prior to the promulgation of its ruling of the 15th ult. As to the evidence of the foreign origin of the solder or of its component materials, the department is of the opinion that in cases where no drawback is claimed on the solder, the oath of the foreman, without reference to the particulars of the importation, may be accepted as sufficient, but that in cases where drawback is claimed on the tin plates and the solder, the importation of both must be specified in the manner prescribed by the regulations. Very respectfully, H. F. FRENCH,
Assistant Secretary.

WASHINGTON, D. C., Sept. 24, 1879.

Collector of Customs, New York—SIR: The department is in receipt of a letter, dated the 20th inst., from the Devoe Manufacturing Company, in which they request that no reference to the particulars of importation of the pig tin entering into the solder used in the manufacture of tin cans be required in entries of such cans for exportation with benefit of drawback.

As the solder is entitled to drawback only on account of the imported lead therein contained the pig tin being free of duty, and as no pig tin is produced in this country, no necessity exists for identifying its importation, and you are, therefore, hereby authorized to permit in entries of tin cans for exportation, with benefit of drawback the omission of the particulars of importation of the pig tin used in the manufacture of the solder.
Very respectfully JOHN B. HAWLEY,
Assistant Secretary.

LETTER TO THE SECRETARY OF THE TREASURY.

WASHINGTON, D. C., Nov 10, 1879.

To the Honorable the Secretary of the Treasury.—SIR: Your letter of the 30th September, together with the enclosures therein mentioned in reference to the drawback we claim on tin cans exported Oregon, have been received, and submitted to the board, who, at their meeting to-day, instructed me to reply thereto as follows:

Exporters of salmon from Oregon merely claim drawback on the tin, all of which is imported, and not on the solder, which latter is of domestic manufacture. Accordingly if you rule that in consequence of our salmon exporters using American solder they deprive themselves of any claim to drawback of duty, you therefore practically compel them to use imported lead only, and thus American manufactured solder cannot find a market in this state and Washington territory. If then,

First. This board understands your letter rightly the treasury department now rules that all American manufacturers of tin cans who export the same abroad are entitled, provided they use foreign tin and foreign lead (in the manufacture and soldering of such cans) to a rebate or drawback of all duties hitherto paid or to be paid, not only on the tin itself but also on lead so imported for solder.

Second. But if on the other hand imported tin is used in the manufacture of such tin cans along with American lead (as solder), no drawback whatever, even on the duty paid on the tin, will be allowed by the department when such tin cans are exported.

With all deference to the department, this board cannot see why the mere fact of using solder (which is composed of foreign tin and American lead) to close up a can, should deprive us of a drawback of duty on the imported tin used for making that can. This case is analogous to that of wheat bags or sacks exported with wheat. Although the cloth of the bag is made wholly of foreign (imported) material, yet the thread with which the sack is sewed in the United states is of American manufacture; and still, when the sacks are re exported back to the United States, your department admits them duty free. Why are not tin cans soldered with American solder, practically in the same position?

As stated by me in my letter of Aug 1st, the rulings you have thus made deprives Oregon and Washington territory of the opportunity of successfully competing with our neighbors the salmon exporters of British Columbia, and the only relief the department can afford is [illegible] British merchants [illegible] American lead industries.

I am instructed [illegible] respectfully to ask you kindly to reconsider your decision [illegible] Oregon and Washington [illegible].

WILLIAM REID, Sec'y of the Board.

The letter and the accompanying resolution was adopted and the secretary of the board was instructed to forward a copy of each to the secretary of the treasury.

PREAMBLE AND RESOLUTIONS.

The following preamble and resolutions were introduced and adopted:

Nov. 10, 1879.

WHEREAS, On all foreign goods reshipped at San Francisco for Oregon a bond for the duties thereon is required by the treasury department, for $50,000 for each steamer carrying imports goods to Portland and Astoria;

AND WHEREAS, Such sum is at all times greatly in excess of the actual duty necessary to be charged, and is the means of causing such duty on Oregon goods to be paid at San Francisco and that city to receive the credit of the same;

AND WHEREAS, The collectors of customs at Portland and Astoria are both of the opinion that a bond for $30,000 for each San Francisco steamer carrying foreign goods is amply sufficient, therefore,

Resolved, That this board respectfully asks the secretary of the treasury to reduce the customs bonds referred to to $30,000, and that our secretary forward this resolution to the treasury department.

WHEREAS, From the recent ruling of the secretary of the treasury no drawback is hereafter to be allowed on tin when re-exported in cans, and

WHEREAS, This order will seriously affect our salmon trade in competition with our neighbors of British Columbia, besides prejudicing American and manufacturers' interests, therefore,

Resolved, That our senators and representatives are hereby instructed to represent in person to the secretary of the treasury the evils complained of and seek relief; failing which, that they ask congress at its next session to pass a law which will enable all exporters of goods in tin cans to rebate of the duty charged on such tin, whether the cans referred to are soldered with American or foreign lead. Further, that the secretary communicate this resolution to our representative and to the secretary of the treasury.

WHEREAS, The interests of the state of Oregon and the territories of Washington, Idaho and Montana and the increase of population in these territories imperatively require the final completion of the Northern Pacific railroad, so as to give to us a road freed from the excessive freights charged by the Union and Central Pacific railroads, and to secure which it is necessary that an extension of the land grant of the Northern Pacific railroad company be granted; and

WHEREAS, The Northern Pacific railroad company has shown by its actions in the past two years an earnest desire to complete its railroad, and therefore has earned the good wishes of all classes on this north Pacific coast;

Therefore, The board of trade of the city of Portland would again respectfully and earnestly recommend to the congress of the United States that the extension of the land grant and the time for the completion of the road of the Northern Pacific railroad as asked by that company be granted and that the act granting such extension should require the said company to build its main line down the Columbia river to the city of Portland in the state of Oregon, and thence to Puget sound, via its present line of road now in operation between the Columbia river and Puget sound. Farther, that our senator and representative in congress be asked respectfully to consider and carry out these views in the interests of the people of this state, and that a copy of this resolution be forwarded under the seal of this board to the Northern Pacific railroad company.

On motion the secretary of the board was authorized to forward a copy of the resolution in relation to the N. P. R. R. to the secretary of that company and also a copy to our senators and representatives in congress.

On motion the board adjourned.

ACCIDENT OR SUICIDE?

EDWARD CONELL OF WASHINGTON COUNTY GETS A LIFE INSURANCE POLICY OF $15,000, FALLS FROM A TREE AND IS KILLED.

About four weeks ago Edward Connell, a well known young man living in Washington county, came to this city and applied to various agencies for large polices of life insurance. He represented himself as a young farmer in medium circumstances, and the fact that he wanted $20,000 worth of insurance led some of the agents to fight shy of him. He made various inquiries of one agent as to whether companies would pay in case of suicide, giving hypothetical cases, such as that of a man being found dead in the woods with a gun in his hand and a gun-shot wound in his head; or being found drowned and the coroner's jury bringing in a verdict of accidental death.

It has been reliably reported that Connell had a policy of $15 000 in the Mutual Life Insurance Company of New York, payable to his sister, which was received only a few days before his death. The sequel is contained in the following account of his death received yesterday by THE OREGONIAN from a gentleman from Gaston:

Last Friday, Edward Connell fell from the top of a fir tree, near Dilley, Washington county, and was instantly killed. The tree stood near his barn and he had trimmed it nearly to the top, cutting off the limbs so that the wind could not take hold of the tree and blow it down on the barn. He was near the top when last seen alive, and must have fallen eighty feet, and was found at the foot of the tree dead and terribly mangled. He was a sober and industrious young man probably 25 years of age, unmarried. He was descended from one of the noble families of Ireland, and a man of much more than ordinary education, culture and intelligence."

AMUSEMENTS.

THE THEATER.—The public interest in the good ship "Pinafore" is in no wise abated. Considering the very great rain storm that prevailed last evening, the attendance at the theater was very good. At no previous performance were the singers in such good voice, both principals and chorus being in excellent trim. This, and to-morrow evening are the last nights of the opera. To-morrow afternoon there will be a special matinee.

"PINAFORE" UNDER ORDERS FOR SALEM.—Manager John Maguire has received a very numerously signed request that he would play the "Pinafore" company at Salem. The document is signed by the governor, secretary, and other state officers, as also by the city and county officials. Manager Maguire has intimated his intention of playing "Pinafore" at Reed's Opera House on Thursday evening, the company re-appearing here in "Pocahontas," with all the original music, on Friday.

The celebrated physiognomist, Dr. J. Simms, who reads nature's delineations of character with masterly perception, and delights crowded audiences everywhere with his eloquent lectures, is in the city, and it is to be hoped that he will soon favor us with a course of lectures.

WM. SCHEFFLER'S ST. HELENA

SANITARY, VACUUM DISTILLED GRAPE BRANDY AND GOOD OLD FIRE HILL WINES.

Mr Scheffler is sole proprietor of the principle known as the vacuum process of distilling, by which the fusil oils are left with the residue and not incorporated with the brandy, leaving it pure and free from all deleterious substances which does and must exist in all alcoholic liquors distilled by the usual process of boiling heat. *California Physicians* have pronounced their preference of it to all other. Doctor Cox, government revenue officer at Cincinnati, Ohio says in his report, that after ten years of close investigation he can safely say that very few, if any, pure wines or brandy are exported from the Old Continent to this. He has found none in his many analyses—that all are doctored before leaving France. The French Consul at Buenos Ayres writes home to his government that so much complaint is made there of the appearance of [illegible] and other dangerous drugs in [illegible] French wines, that there is great danger of losing the trade of the Argentine States. Other proofs could be cited were it necessary, to prove the superiority of the [illegible] of California wines and brandy. Orders from responsible parties addressed to Wm. PEDAL PROGRESS.

Miss Florence, Miss Wiley, Miss Denman and Miss Donley Tramping for Trophies at Armory Hall and Turn Halle.

All day yesterday and last night the lady walkists kept up their long and arduous walk at the new Armory Hall, without showing the least signs of fatigue. Miss Wiley is in the best of spirits and confident of success. In conversation with an OREGONIAN reporter last evening she stated that she did not feel the least fatigued, but complained of a silent drowsiness.

Early yesterday morning, between the hours of 4 and 5:30 she slept soundly during her revolutions round the track and felt considerably refreshed by the nap. On her 170th quarter a little yesterday one of the lady spectators present signified her willingness to accompany her for a while, and she succeeded in putting the fair [illegible] through in 2:11, considerably puffed.

Miss Florence still continues to keep up about the same gait with which she started and astonishes her many admirers with the determination with which she avers that she "will do or die." Her feet were blistered yesterday afternoon, but when properly treated were brought around all right. Her powers of endurance are remarkable, and, as she states, startle her somewhat when she considers that she has not slept a wink from the time she came upon the track, last Saturday evening until the present writing, a period of 55 hours, and as yet has not had the least desire to do so. This cannot possibly last much longer, and to-morrow night the spectators will have the pleasure of seeing both the fair pedestriennes perform their tasks fast asleep, and with the assistance of a coacher, make better time than heretofore. The average time for a quarter yesterday was 2:50, and for the mile 11, pretty good time considering the difficulties under which the ladies labored.

At 8:30 P. M. Miss Von Berg began the task of walking 20 miles, during which she rested half an hour and completed it in three hours and fifty-eight minutes.

During the walk last evening a prominent gentleman, visiting this city, wagered $10 that Miss Wiley could not walk a quarter inside of three minutes, and in less time than it takes one to think the bet was taken. As the lady started off a dozen watches were drawn, and as she spun round the track with the speed of a deer loud and frequent were the rounds of applause that greeted her, and as she went round the track for the last time the applause tendered her was deafening. She completed the quarter in 2:55, which was remarkably good time considering that it was the lady's 202d quarter and her 51st hour of continual walking.

At Turn Halle.

About 600 persons attended the contests at Turn Halle yesterday and last night, some being so interested that they came two and three times. About one o'clock yesterday morning Misses Donley and Denman fell asleep, and sustained by their respective coachers, walked their quarter hours unconscious until long past daylight. Miss Donley enjoyed about five and one-half and Miss Denman seven hours' sleep. When questioned by an OREGONIAN reporter last night both ladies answered that they feel as much refreshed as though they had reclined during the night, and not stepped every foot of the eight laps in every 15 minutes. Both awoke yesterday morning apparently as fresh as when they commenced, and through the day walked their quarter miles in the average time of 2:50.

At 8:16 last night Emmet Fitzgerald began a five mile walk finishing it in 48 minutes: First mile, 8:30; second, 9; third, 9:15; fourth, 10; fifth, 11:15. At 8:30 minutes Belle Sherman commenced a five mile walk, finishing in 61 minutes: First mile, 10:30; second, 11; third, 13; fourth, 14; fifth, 12:30. At 9:30 Sadie Donley began a five mile walk finishing in 58:30: First mile 10:30; second, 11:15; third, 12:45; fourth, 12:30; fifth, 11:30. All three walked square heel and toe.

Miss Denman made her 194th quarter last night in 2:22 and 200th in 2:25, both amid great applause. Miss Alice Donley walked her 194th quarter in 2:32, and 200th quarter leisurely in 2:30. On the last lap of the 200th she was presented with a gold mounted ivory handled whip, by an enthusiastic admirer.

The interest in the walking is increasing rapidly and among the visitors in the gallery last night were two or three score of ladies with their escorts. Some interesting exhibitions are announced for to-night.

STARVING TO DEATH.

Thousands of men and women are starving themselves to death. They dare not eat or drink this or that, fearing it will increase their flesh. Life depends upon continuous self-denial. The only safe and reliable remedy for this terrible condition is Allan's Anti-Fat. It is wholly vegetable and perfectly harmless. Its use insures a reduction of from two to five pounds per week. Sold by all druggists.

BUFFALO, N. Y. June 13, 1878.

To the Proprietors of Allan's Anti-Fat—GENTLEMEN: The following report is from the lady who used Allan's Anti-Fat: "It (the Anti-Fat) had the desired effect, reducing the fat from two to five pounds a week, until I had lost twenty-five pounds. I hope never to regain what I have lost." Yours respectfully, POWELL & PLYMPTON,
Wholesale Druggists.

Read and Learn for Yourself.

Many valuable discoveries and much useful knowledge is kept from the world, because of the immense expense in making them known to the people. This is not the case with BOSCHEE'S GERMAN SYRUP. Although but a few years introduced in this country, its sale now reaches in every town and village in the United States. Its wonderful success in curing consumption, severe Coughs, Pneumonia, Asthma, and all other diseases of the throat and lungs, was first made known, by distributing every year, for three years, over 400 000 bottles to the afflicted, *free of charge*, by druggists. No such a test of merit was ever given before to any other preparation. Could you ask more? Go to your druggist and get a bottle for 75 cents and try it. Sample bottles 10 cents.

SUICIDE.

A distinguished Scientist once said: "No man with a strong, healthy stomach ever committed suicide, yet many suffer the torments of the damned with dyspepsia, when a single bottle of DR MINTIE'S ENGLISH DANDELION LIVER AND DYSPEPSIA PILLS will give relief, and, if persisted in, cure the worse case of this distressing trouble. This pill cures torpid liver, biliousness, sallow complexion, foul breath, sick headache, heartburn, pain in side and back, removes pimples from the face, regulates the bowels, is sugar-coated and guaranteed purely vegetable. It acts directly on the coating of the stomach and on the liver; is suited to any climate, wet or dry weather. Beware of imitations; genuine has cut of lion on outside wrapper. Price, 50 cents. Sold by all druggists. Hodge, Davis & Co., Portland, wholesale agents.

How to Save Money.

Instead of going to a doctor, if you have Bright's Disease, Diabetes, pain in back and loins, scarting, inflammation, calculi, brick-dust deposit; or any trouble of the kidneys or bladder, buy a bottle of DR. MINTIE'S NEPHRETICUM, the great *Buchu Compound*. It is the best prescription ever compounded for these troubles. Abrams & Carroll, Wholesale Druggists, say: "*We regard Nephreticum as the best Kidney and Bladder Remedy in the market.*" Woodward, druggist, Portland, Oregon, says: "Everybody speaks highly of it." Childs, druggist, Portland, says: "Sold lots of it; it always does the work." Many have been cured of obstinate kidney complaints after the doctors gave them up. Sold by all druggists. Price $1 25. Hodge, Davis & Co., Portland, Wholesale Agents.

Sir Astley Cooper's Vital Restorative.

The great English remedy—has made more cures of Nervous Debility, Seminal Weakness, Lost Manhood, nocturnal emissions, lassitude, inability for mental labor, despondency, and such diseases as are induced by youthful follies and excesses, than all other medicines combined.

It is not a stimulant nor excitant, is perfectly safe to take, is not a *quack nostrum*, and produces results that are wonderful.

Price, $3 a bottle. Four times the quantity, $10. Buy a bottle. It will not disappoint you. Hodge, Davis & Co., wholesale agents.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, New York C.*

FIREMEN'S ELECTION.

NOMINATION FOR CHIEF ENGINEER.

W. H. ANDRUS, OF NO. 1.

HALL OF WILLAMETTE ENGINE CO. NO. 1,
PORTLAND, Ogn., Oct. 3, 1879.

AT A REGULAR MEETING OF WILLAMETTE Engine Company No. 1, held at their hall on Thursday evening, Oct. 2, 1879, the following preamble and resolutions were unanimously adopted:

WHEREAS, Sound judgment and deliberate conduct in the active discharge of his duties are the pre-eminent requisites of ability in the head officer of a live and efficient fire department; and

WHEREAS, A fireman of many years' active service, possessing such marks of ability, who has served for nearly four years as chairman of the committee of the common council having control of matters relating to the needs and efficiency of the Portland Fire Department, is well worthy of the confidence and support of all firemen as a man who would ably and faithfully discharge the duties of chief engineer and successfully lead and direct the department in times of activity and unfaltering service; therefore

Resolved, That Willamette Engine Co. No. 1 esteems Mr. W. H. Andrus to possess such worthy requisites of ability, and we, the members of said company, pledging him our hearty and united support, hereby nominate him for the office of Chief Engineer of the Portland Fire Department, and respectfully present his name to the consideration of voters at the regular election on December 1, 1879. JOSEPH SIMON, Pres't.

DECISION IN THE U S CIRCUIT COURT DEADY J

U S Circuit Court District of Oregon

Friday November

James Aiken v James [illegible] Pratt No [illegible] equity for an [illegible] conveyance.

(1) DECISION OF [illegible] the land [illegible] the course [illegible] other tribunals unless it appears that [illegible] is the result of fraud [illegible] mistake [illegible] error of judgment in estimating the value of evidence or making deductions therefrom but for error in the construction or application of the law relating to such business its decisions may be reviewed and modified or annulled by the courts.

(2) RESIDENCE [illegible] The pre-emption act requires a pre-emptor to [illegible] the tract [illegible] and this means to abide there [illegible] upon the premises until the [illegible] ment is made.

(3) RIGHT TO CONTEST No one can be heard to question or contest the right of another to a patent for public land until he shows some right in himself in or to the premises.

(4) PRE-EMPTION RIGHT The right of pre-emption is not an interest in the land but the right to be preferred as a purchaser of a portion of the public domain and it accrues when the settler has complied with the prerequisites of the act by making his settlement and filing his declaratory statement.

(5) PRE-EMPTOR QUALIFICATION OF If a settler under the pre-emption act is a qualified pre-emptor *at the time* of filing his declaratory statement, he is entitled as against the United States to become the purchaser of the premises.

(6) PROPRIETOR OF LAND The term proprietor as used in the inhibition contained in [illegible] of the pre-emption act (5 Stat 455, § 2259 R S) means an absolute and legal owner and therefore where one owns land in trust for another or has entered public land with cash or scrip but has not received a patent therefor he is not such a proprietor thereof and is therefore not thereby disqualified to acquire the right of pre-emption.

(7) PATENTEE WHEN A TRUSTEE Upon an erroneous construction of the law relating to the qualification of a pre-emptor the land office canceled the entry of A and issued a patent to P a junior settler, for a portion of the tract entered by A Held that P was a trustee for A as to such portion and must convey the same to him on receiving the purchase price thereof.

(8) STATUTE OF FRAUDS A parol contract in relation to lands, if set out in the bill is to have the same effect as against the plaintiff as if it had been made in writing.

DEADY, J

This suit is brought to enjoin the defendant from enforcing a judgment of this court for the recovery of the possession of the S E ¼ of the S E ¼ of section 2 and the N E ¼ of the N E ¼ of section 11 of township 27 south, of range 13 west, of the Wallamet meridian, and that the patent to said premises heretofore issued by the United States to George W Pratt the vendor of the defendant, be held to inure to the benefit of the plaintiff and that the defendant be required to release his interest therein to the plaintiff.

The case was heard upon the bill, answer, replication and exhibits and the depositions of numerous witnesses.

The material facts established by the testimony are as follows In 1863 James Aiken the plaintiff, made a settlement and residence upon a defined portion of the public lands near the Isthmus slough in Coos county, Oregon, and within what proved to be township 27 south, of range 13 west, of the public surveys, with a view to acquire the title thereto under the pre-emption laws of the United States, and cultivated the same and made substantial and valuable improvements thereon. In the early part of 1869, and after the line between the said township 27 and township 26 had been run, the plaintiff concluded that the area of 160 acres which should include his then dwelling house would not extend to his southern and eastern line and therefore built another dwelling house upon the tract farther east and south and on what is now known as the S. W ¼ of the S E ¼ of section 2 of said township 27 and within the limits of the clearing and cultivation made by him before that time, and moved therein in the month of May of said year, and continued to reside there and improve and cultivate the premises, including a portion of the legal subdivisions in controversy until after April 16 1872.

The eastern line of the plaintiff's original location was a line drawn due north and south from a large dead fir tree standing in N. E ¼ of the N. E ¼ of section 11 and 271 feet west of the east line of said sections 2 and 11.

In March, 1869, George W Pratt was living in a house belonging to the plaintiff near the Isthmus slough, when, upon the suggestion of the plaintiff, he determined to make a settlement upon a ¼ section of the unsurveyed public lands lying immediately to the west of the plaintiff's settlement, and said plaintiff went with said Pratt upon the land and showed him said dead fir tree and his east line as aforesaid, and it was then and there understood and agreed by and between said plaintiff and Pratt that said line should be the actual boundary between their locations and that if the line of the public survey should not coincide therewith, and either of them was therefore required to go beyond said agreed line to the nearest line of said survey in making his declaratory statement and proof of settlement before the register and receiver, that he would, as soon as he obtained title to his preemption, release or convey the same to the other, back to said agreed line or boundary. In pursuance of this arrangement, Pratt commenced to improve his location and during the years 1869 and 1870 cleared 3 or 4 acres of the land to the east of the agreed line and cultivated some portion of the same, but continued to reside with his family in the plaintiff's house on the slough. In June, 1870, Pratt commenced to clear a place for a house a short distance to the west of the agreed line and in the fall of that year built a small house of sawed lumber thereon, and moved into the same with his family, where he resided until January, 1871. Between this date and February, 1872, he did not reside upon the location. At the latter date he returned to the place and resided there until the latter part of the summer of 1872, and during the contest between himself and the plaintiff before the register and receiver, when he left the premises permanently. In September 1870, when Pratt commenced to build this house the plaintiff went upon the ground and protested against the act as a violation of his right and a breach of the agreement between them. Pratt admitted the agreement but justified his conduct upon the ground that the plaintiff could not hold the land anyway.

Township 21 was surveyed in October 1871 and the plat and survey was approved in March 1872.

On June 21, 1869, the plaintiff filed with the register and receiver his declaratory statement as a settler upon "unoffered and unsurveyed" lands, describing therein the premises by metes and bounds and, as "containing 160 acres, more or less, and on March 30 1872 made his declaratory statement before the same officers as a settler upon lands 'not subject to the private entry,' and described as the S ½ of the S E ¼ of section 2, and the N ½ of the N E ¼ of section 11 in said township 27, and alleging a settlement thereon, on May 20, 1869 and on April 16 thereafter made final proof and payment therefor and obtained a certificate from the officers aforesaid, to the effect that he had become the purchaser under the pre-emption laws of the said legal subdivisions of the public lands.

On April 17 1872 Pratt made a declaratory statement before the register and receiver as a settler under the pre-emption laws for the S. W ¼ of the S W ¼ of section 1 the S E ¼ of the S. E ¼ of section 2 the N E ¼ of the N E ¼ of section 11 and the N W ¼ of the N W ¼ of section 12 alleging a settlement thereon on March 1 1869 and on May 13 thereafter made final proof and payment therefor.

After Pratt had filed his declaratory statement alleging a settlement prior to that claimed by the plaintiff in his statement the latter filed an amended statement alleging that his settlement actually commenced in 1863 and that he had not deemed the date of the commencement of his settlement material, and asked to have his declaratory statement amended accordingly.

On August 2, 1872 the commissioner of the general land office suspended Pratt's entry because it was in conflict with the plaintiff's and directed the register and receiver to appoint a day to hear the parties to the conflict. The contest was then heard by the register and receiver who there [illegible] transmitted the case to the commissioner with their opinion in favor of the entry of Pratt.

On June 24 1874 the commissioner decided the contest in favor of Pratt *upon the ground* "that at *the time Aiken filed* [illegible] by him he was not a qualified pre-emptor and has no right to the land [illegible] because on January 2 [illegible] own [illegible] R 13 west [illegible] on March [illegible] year he [illegible] sold and disposed [illegible] of the same [illegible] because on [illegible] 1871 he jointly with 5 others located [illegible] acres of public land [illegible] subject to sale at Roseburg [illegible] upon agricultural college scrip issued to the state of Texas and on the same day [illegible] with said other [illegible] for cash at the land [illegible] acres and on February 1 [illegible] entered at the same place and in like manner 1520 acres of public land thereby becoming the owner of a ⅙ interest in 7120 acres of land which entries and location were then in force and the interest of Aiken therein still owned by him.

On August 5 1875 the acting secretary of the interior affirmed the decision of the commissioner and on October 1 1875 a patent was issued to Pratt in accordance therewith.

The opinion of the commissioner also finds that Pratt commenced a bona fide settlement on the tract claimed by him on March 1 1869 [illegible] his residence thereon [illegible] commence [illegible] It notes the amended declaratory statement of the plaintiff [illegible] gives the date of his original settlement correctly as April [illegible] instead of March [illegible] a [illegible] states the number of acres [illegible] land [illegible] by the plaintiff [illegible] he is with [illegible] [illegible] But the decision of the [illegible] in favor of [illegible] against [illegible] that if the plaintiff was [illegible] upon the question of the [illegible] upon the ground that Aiken was disqualified [illegible] lands as a pre-emptor [illegible] of his [illegible] in the other entries [illegible] said which [illegible] by [illegible] to have been [illegible]

In December [illegible] Pratt conveyed the premises included in [illegible] to the defendant for the nominal consideration of $5 [illegible] and the promise to pay [illegible] when the right to the 80 acres [illegible] should be finally [illegible] in favor of Pratt and the [illegible]

[illegible] asked to review [illegible] action of the land office in this matter and the question arises at the threshold of the inquiry how far such [illegible] binding and conclusive on the courts.

The general rule [illegible] the [illegible] early [illegible] down by the supreme court [illegible] owing to the nature of the subject some difficulty and differences of opinion will sometimes rise in the application of it.

In Johnson v Towsley 13 Wall Mr Justice Miller in delivering the opinion of the court after admitting "the general doctrine that when the law has confided to a special tribunal the authority to hear and determine certain matters arising in the course of its duties the decision of that tribunal within the scope of its authority is conclusive upon all others" and that the action of the land office in issuing a patent for any of the public land subject to sale is conclusive of the legal title wherever this title must control defines and limits the scope of judicial enquiry in such cases, as follows

On the other hand there has always existed in the courts of equity the power in certain classes of cases to enquire into and correct mistakes injustice and wrong in both judicial and executive action however solemn the form which the result of that action may assume when it invades private rights and by virtue of this power the final judgments of courts of law have been annulled or modified and patents and other important instruments issuing from the crown or other executive branch of the government have been corrected or declared void or other relief granted. No reason is perceived why the action of the land office should constitute an exception to this principle. In dealing with the public domain under the system of laws enacted by congress for their management and sale that tribunal decides upon private rights of great value and very often from the nature of its functions this is by a proceeding essentially *ex parte* and peculiarly liable to the influences of frauds false-swearing and mistakes. These are among the most ancient and well-established grounds of the special jurisdiction of courts of equity just referred to and the necessity and value of that jurisdiction are nowhere better exemplified than in its application to cases arising in the land office.

In the subsequent case of Shepley v Cowan 1 Otto 340 Mr Justice Field in speaking for the court says that if the officers of the land department "err in the construction of the law applicable to any case or if fraud is practiced upon them, or they themselves are chargeable with fraudulent practices their rulings may be reviewed and annulled by the courts * * * but for mere errors of judgment upon the weight of evidence in a contested case before them the only remedy is by appeal from one officer to another of the department and perhaps, under special circumstances to the President.

Guided by the rule furnished by these cases it is evident that this court cannot review the action of the land office however erroneous if fairly and regularly had upon the mere question of fact, as to which was the prior settler upon the disputed premises, Aiken or Pratt. And therefore although to my mind it is as plain as proof can make it, that Pratt did not even *commence to make* his settlement upon the disputed premises until long after Aiken did his, and that he did not commence to inhabit it or actually reside upon the same or erect a dwelling thereon until the fall of 1870, at least 18 months after the plaintiff had made his actual residence thereon, and years after he had cultivated and improved the same, still this court cannot disregard or set aside a contrary finding by the officers of the land office, unaffected by fraud or mistake other than error in estimating the value of evidence.

But if the determination of that question hinged upon a question of law, as for instance "Is it not absolutely necessary to constitute a settlement under the pre-emption law that the pre-emptor should erect a dwelling on the land and *actually reside* upon the same" and the decision of the land office thereon was erroneous, then this court upon a proper case made would set it aside.

Now in this case so far as appears there was no actual decision as to which Aiken or Pratt, was the prior settler in fact but the contest seems to have been made upon the point that Aiken was not a qualified pre-emptor, and therefore could not make a legal settlement. The right of pre-emption is given by § 10 of the act of September 4 1841 (5 Stat., 455 § 2259, R S) which provides that any one of a specified class of persons who may perform certain acts with reference to the public lands shall be entitled to enter not more than 160 acres thereof at the minimum price. These acts are (1) Make a settlement *in person* on such lands (2) *Inhabit* and *improve* the same and (3) Erect a dwelling thereon.

Now, nothing short of the performance of these acts make a person a qualified pre-emptor of the public lands or constitutes a settlement thereon. *Inhabitancy*—an abiding or actual residence upon the land is required and until this begins a settlement is not made. Therefore admitting the facts which the commissioner says are shown by the evidence as a matter of law it is plain that Pratt did not make a settlement upon the disputed premises until the fall of 1870 when he erected a dwelling thereon and commenced to inhabit the same and that is confessedly long subsequent to the date of Aiken's settlement. But if the plaintiff was not a qualified pre-emptor he cannot be heard to object to the validity of Pratt's entry which is so far as he is concerned a matter wholly between the latter and the United States. The plaintiff must first show in himself some right in or to the premises before he can question the validity of the defendant's title. (Stark v Star, 6 Wall 418.)

The material question then to be considered is was the plaintiff a qualified pre-emptor. The pre-emption act (§ 10 *supra* 2260 R S) provides that "No person who is the *proprietor* of 320 acres of land in any state or territory of the United States * * * shall acquire any *right of pre-emption* under this act. This right of pre-emption is not an interest in the land but only the right to be preferred as a purchaser of a certain portion of the public lands at the minimum price irrespective of its real value (Myers v Croft 13 Wall, 296 10 Pom 57). Such right must accrue upon the performance of the acts on account of which it is given. These are the settlement on the land including its improvement and inhabitancy and the filing of the declaratory statement.

If upon the filing of his statement the settler is a qualified pre-emptor as against the United States he is entitled to make the purchase although he may not have been so when he went upon the premises, and by a parity of reasoning if thereafter and before he makes the entry he should become the owner of 320 acres of land by inheritance or otherwise he would not be thereby disqualified to make the purchase. True, the proof of the performance of these acts and the qualification of the settler must be furnished to the officers before the purchase can be made or the right of pre-emption exercised. But this is only the appointed means of making it evident to the land office that facts which already exist, and [illegible] which the right of pre-emption is given.

[illegible] the law was [illegible] a qualified pre-emptor when [illegible] declaratory statement and [illegible] to be a pre-emptor on [illegible]

[illegible]

[illegible] was not [illegible]

[illegible] disqualified [illegible] from becoming a pre-emptor.

But it does not appear that the evidence showing that the plaintiff [illegible] of this section in trust only was before the land office and therefore it does not appear that the question whether a mere trustee is a proprietor within the meaning of the pre-emption act was [illegible] passed upon by him. But the commissioner [illegible] that the plaintiff had sold [illegible] of these [illegible] acres [illegible] declaratory statement. His interest then in this section [illegible]

[illegible]

[illegible] in the view of the latter evidence [illegible] of the transaction [illegible]

And this brings up the question whether on March [illegible] the plaintiff was the proprietor of the [illegible] or any portion of the land included in the entries of June 1 1871 and February [illegible] An entry of lands for cash or scrip gives the party making it a right to a patent therefor if [illegible] be found regular and valid. But it does not pass the title which remains in the United States until the patent issues. The person making the entry if there be no valid objection thereto as against the government has a right to a conveyance of the legal title but as the government cannot be sued without its consent such a right is little else than a mere moral one. After the entry and notwithstanding it congress has the power to withdraw the land from sale reserve it for public purposes or dispose of it to another. True in the latter case a court of equity may compel the patentee to convey to the one who has the prior equity by reason of his prior entry. Besides the entry may prove illegal and unauthorized and therefore be canceled and set aside.

I am aware that some expressions in the opinion of the court in Frisbie v Whitney (9 Wall 191) and the Yosemite Valley case (15 Wall 85)—particularly the latter—are to the effect that when a settler under the pre-emption law has complied therewith and paid the price of the land that he has a vested interest in the premises of which he cannot be deprived.

But certainly this interest is not the legal title or estate which is necessary to make one a proprietor or owner in the full and legal sense of the word. Such an interest is nothing but an equity which there is no means of enforcing—at least so long as the government retains the legal title.

In my judgment the proprietorship contemplated by the pre-emption act is a legal and absolute one and not the mere equity of a land office entry which may or may not ripen into such ownership.

It follows from these premises that the plaintiff at the time of filing his declaratory statement or at any time thereafter, pending his entry and contest, was not the *proprietor* of 320 acres of land and therefore not disqualified to acquire a pre-emption right.

The patent to Pratt so far as it includes the S E ¼ of the S E ¼ of said section 2 and the N E ¼ of the N E ¼ of said section 11 was therefore wrongfully issued upon an erroneous construction of the law and he took the same in trust for the plaintiff who was entitled to the patent therefor. The defendant took his conveyance from Pratt of this 80 acres without consideration and with knowledge of all the circumstances.

The equity of the case is with the plaintiff and the only question is whether the defendant shall be required to convey to him the whole of this 80 acres or only that portion of it lying to the west of the boundary agreed upon between Aiken and Pratt. Pratt having repudiated the agreement and the defendant denied it, the latter cannot well now ask for its recognition and enforcement by the court. It may also be objected that the agreement is invalid not being in writing. But so far as the plaintiff is concerned that difficulty is obviated by the fact that the agreement has been set out by him in his bill and thereby established with the same certainty and effect as if originally reduced to writing. Therefore in granting him the relief sought effect will be given to this agreement as set forth in his bill. (Stor Eq P § 761 768.)

The decree of the court will be that the defendant be enjoined from enforcing his judgment in this court against the complainant except to recover the possession of that portion of the S. E ¼ of the S. E ¼ of section 2 and the N E ¼ of the N E ¼ of section 11 aforesaid lying east of a line running parallel to the eastern boundary of said legal subdivisions and 174 feet west of the same and that within 60 days hereof the defendant convey to the plaintiff by a proper conveyance with sufficient covenants against his own acts, to be approved by the master of this court the remainder of said legal subdivisions—the plaintiff first paying to the defendant the sum of $1 25 an acre therefor, either in lawful money or by applying such an amount upon the costs and expenses incurred by him in the prosecution of this suit and that the defendant pay the plaintiff said costs and expenses.

DR. PAUL M. BRENAN

The Most Successful Physician on the Pacific Coast.

IN THE TREATMENT OF ALL

CHRONIC AND DIFFICULT DISEASES.

HAS RETURNED AFTER AN EXTENSIVE tour of the Eastern states for the past four months. The Doctor while absent visited all the principal Medical institutions in the large cities of the United states and comes back with all the modern methods instruments and appliances known to the most scientific men in the profession. The Doctor has also brought charts and manikins to illustrate his lectures.

DR. PAUL M BRENAN has been fifteen years lecturing on the Laws of Life and Health. In his private and public lectures he has taught men and women the true system of life how to be healthy and happy if they would only be guided by his wise counsel. But all cannot hear his delightful and instructive lectures nor can he tell everything necessary for sufferers humanity to know from the public rostrum before a promiscuous audience. There remains much to be learned from him as his experience extends over broad fields of active professional life. This knowledge so necessary to the welfare of the sufferer can only be gleaned by private Professional Consultation at his office.

His experience in the various parts of Europe and America give him such opportunities of learning the delicate diseases which the human family are prone to their mode of treatment and permanent cure as no other physician on the Pacific Coast can claim. He has not only treated these diseases most successfully but has made them a life study as a few moments consultation will prove.

He has become an expert in the treatment of disease weakness and derangement of the reproductive organs of both sexes [illegible] including diseases caused by the
